## ABOUT ME

Entry-level Web Developer with a strong foundation in frontend and backend development. Interested in building secure and scalable applications using FastAPI and contemporary frontend tools. A quick learner with good group management skills and high adaptability, passionate about solving problems and building real-world, user-focused products. Certified by EF SET with an intermediate level of English communication.

---

## INTERNSHIP

Brainery Spot Technologies  
Machine Learning Intern

---

May 2024 – June 2024

## PROJECTS

### 1 . Learning Management System(LMS) - Ongoing

Currently building an LMS to manage courses, users, and learning content with enrollment, progress tracking, and role-based access control.

### 2 . HomeServ (Static & FullStack)

Developed a home services platform that evolved from a static website into a secure and scalable full-stack application connecting users with service providers.

### 3 . Portfolio Website

Developed and deployed a personal portfolio website to present projects and skills.

---
